

NAME _____

Homework for: May 23-29

Signed agenda and math homework due on **Wednesday, May 30**

Homework Agenda

We've been wrapping up our projects and units from the end of this trimester. The students have been reading historical fiction in book clubs, researching and writing about the Gold Rush, and practicing the multiplication standard algorithm / comparing fractions. In science, we've been testing rubber band roller cars.

Look for report cards to go home next week on Wednesday. It's been wonderful to spend the year with this amazing group of students and families. Have a great summer!

Summer Reading Challenge: Read at least 6 books this summer and win 4 tickets to the Cal football opening game next season! Sign up here: <https://walkontherun.com/summer-reading-challenge>

****** Students who have not finished their Book Club books MUST bring them home to read and finish over the long weekend.**** (I have told students this in class as well)**
